Lighting with Innovation at Havells

At Havells, we believe light is the fourth dimension of architecture. It can guide and direct. It can also enhance and show objects in its dynamic and marvelous self.

We understand every space needs lighting that is tailor-made for it, enhances it and brings everything to life; and it is this property that has been the hallmark in every product that comes out of our factory.

Our luminaires are not merely tools of illumination but the torchbearers of a new era in lighting. They stand testimony to our strength in manufacturing, from OPTO electronics to LED technology and integrating them in our state-of-the-art plants.

Our customers can rely on every aspect of safety, performance and reliability from our products.

And now we present our latest offerings, designed taking into consideration the feedback received from clients, customers and designers alike:

Office Lighting: Paradigms have been redefined with the advent of open plan offices. We are proud to present our range of lighting products for a brighter and more productive office space.

Street Lights: Smart cities evolving in India demand Next-Gen lighting. Havells street lighting range encompasses all the features that are needed for a more efficient lighting system.

Landscape Lighting: The Havells range of landscape lighting products have been revamped and new products introduced, to keep in sync with market dynamics and needs.

Industrial Lighting: The 'Make in India' initiative has given rise to a new set of high-tech industries all over India. The Havells industrial lighting range aims to provide a wide range of lighting solutions to new and existing industries.

Retail Lighting: Retail shopping is all about experience. With Havells retail lighting, deliver new and exciting experiences to customers..

Solar Lighting: Ambitious solar growth in India demands light fittings that are rugged, durable and in tune with latest industry standards. Our range of solar lighting goes a step ahead. People and the environmental footprint are central to our approach and form the basis of our sustainable policy.

Colorscape (Architectural RGB Lighting): Beautiful aesthetics not only make a place beautiful but also helps to lift the mood. Havells Colrscape RGB Lighting solutions lighting up public spaces and structures for improving their visual quality at night & transforming gloomy spots to a cheerful, inviting and secure places.

Impressions (Architectural Indoor Lighting): As workplace design becomes important for employers, Havells Impressions Range opens up fluid possibilities for architects and designers alike. Impressions Architectural Lighting solutions that offer more comfort, low glare, international styling, better aesthetics and best suitable for architectural designs.

Smart Solutions:

- human centric lighting - Work under the shades of nature and watch your efficiency levels rise!
Tailor light to work in harmony with your natural rhythm
- Connected Lighting for Indoor Spaces- A digital ecosystem that connects lighting & IoT technology. Today's workspaces are a maze, navigating technology and efficiency. As offices become more productive, responsive, efficient and human centric, they demand solutions that offer both flexibility and cost-effectiveness. With Havells Connected Lighting for Smart & Intelligent office solutions, that is unmatched.
- Connected Lighting for outdoor Spaces – Havells innovations now enable all outdoor lighting products and luminaires connected with each other. Real time data mapping and controlling as per requirement. A perfect solutions for a smart city
- Automation & sensor enabled solutions - Havells Connected lighting also offers Day light harvesting, occupancy and motion sensing via in-built sensor based designs for making buildings more efficient.

We combine our innovation and extensive experience to create lighting solutions that makes people feel good not only visually but also emotionally.

Introduction of Plant

CERTIFICATION

Havells lighting plant in Neemrana is spread over 1,21,405.69 m² of land with over 18,580.60 m² of working space under a single roof. The plant has been made keeping in mind the global markets of Europe, US and the Middle East. Setting new benchmarks in the industry, this Havells plant will help bridge the technological divide between Europe and India when it comes to manufacturing high-end lighting luminaries.

Japanese flexible CNC controlled steel fabrication process for the accuracy in sheet punching & bending Italian robotised box bending machines to design complex enclosure shapes without human intervention Automated powder coating paint shop to minimize wastage & fast colour change Eco-friendly zero discharge plant Parabolic rolling machine for replicating complex and accurate forms and shapes Flexible assembly line Modern laboratories.

Building customer confidence by providing a wide range of quality products and service through team work
